DENNIS WARD

RE: Approval of Authorization for Sale of
Property Located at 3100 PLATT PLACE
N, YPSILANTI.
Case Number: TOS2018-00690

To whom it may concern,

On August 03, 2018, this office received an inspection report for the well and/or septic system at the above referenced address. This report was reviewed to determine compliance with Washtenaw County Regulation for the Inspection of Residential Onsite Water and Sewage Disposal Systems at Time of Property Transfer. Based on the information submitted it has been determined that the system(s) is/are functioning properly and are adequate for their intended use.

As the result of this review this PROPERTY IS AUTHORIZED FOR TRANSFER OF THE DEED.

This letter does not imply that the system(s) meet new construction standards. Further, this authorization does not imply or express any warranty or guarantee as to the future function and suitability of the inspected systems. The referenced evaluation was performed based on current operation, and any change in use may change the operational status of the system(s).

Although authorized for property transfer, we do make the following recommendations:

1. The septic tanks were not pumped or inspected as part of the inspection. According to the inspection report, the tanks were pumped less than 1 year ago. This Department recommends pumping and inspecting the septic tanks every 3 to 5 years and that no "additives" be used in the tanks. Property owners have full responsibility for upkeep, maintenance and repair of the system.

This Authorization should be kept with other important records concerning this property.

This AUTHORIZATION is valid until August 3, 2019.

Any questions regarding this letter should be directed to Washtenaw County Environmental Health.

Sincerely,

Kimberly Gebhard, RS
